SUMMARY

I work predominantly in Web/Mobile Development. My career started in 2007 and since then I have gained extensive experience of web/mobile development. With a rounded knowledge of Web/Mobile technologies and creative skills it enables me to work closely with clients, designers and developers to bring product and all product components to the real world with real people.

I have key skills in serverless development, architecture, usability, accessibility, cross platform browser issues, advanced JavaScript, HTML, CSS based design, responsive design, mobile app and user interface design by using a range of web technologies. I work equally well alone and as part of a global multi-functional team. I have good practical, communication and organizational skills. I have been a mentor and a team leader.

Developing is not just a job for me, I spend my spare time learning new technologies every day and taking part in conferences. At the moment my efforts are focused on AWS serverless development, including Node.JS, Angular 4, API Gateway, Lambda & DynamoDB.

EXPERIENCE

New York, NY

May'16 - Present

Lead UI Engineer at [Sudler & Hennessey, Inc.](#)

- Collaborating with team on implementing new features and UX in an Agile environment
- Suggest new product ideas and maintain records for potentially patentable ideas
- Implemented plug-ins to extend application functionality
- Developing the front-end UI by using HTML5, CSS3, and JavaScript, taking advantage of the frameworks Angular.JS
- Estimated time to develop for all approved prototypes and the implementation of those prototypes as well as showing to project leads and receiving and implementing any changes or implementation updates
- Collaborate with other technical product managers to solve cross-functional business needs
- Creating serverless infrastructure in AWS microservices using S3, API Gateway, Lambda, DynamoDB, Cognito, Route 53, Cloudfront, EC2

New York, NY

Oct'2013 - Jun'2017

CTO / Managing Partner at [NYDVS, Inc & Datametriq, LLC.](#)

- Implemented and managed continuous delivery systems and methodologies on AWS, designed a self-healing and fault-tolerant services
- Developed serverless (Lambda/API Gateway/DynamoDB) environment.
- Deployed multi-tier architectures: load balancers, caching, web servers, application servers, databases, and networking
- Managed team of web/mobile engineers, graphic designers, PM's
- Developed web, mobile products using Angular 2-4, Ionic 2-3, ReactJs, VUE, TypeScript, MongoDB, Bootstrap 4, SASS, FireBase, SQLite.
- Developed wireframes, user flows, and hires comps for various projects spanning web-mobile
- Developed functional specifications and designs that can be implemented by our engineering teams

New York, NY

Sep'2011 - Apr'2013

Senior Web Engineer at [Ruckusmarketing, LLC.](#)

- Worked across multiple departments to support applications that support customer service, marketing, production and web teams.
- Participated in UI development processes by establishing and documenting development standards and common components within design system which is used across all web/mobile applications
- Developed the user interface with HTML, HTML5, CSS, CSS3, Javascript, jQuery..., Back-end using PHP, OOP, MySQL, MVC, Codeigniter Framework.

PROFESSIONAL SKILLS

- Strategic Planning & UX/UI
- Team Management
- Project Management
- Critical Thinking
- Business Development
- Technology Integration
- Agile -> Scrum
- Engineering

PERSONAL SKILLS

- Self-motivation
- Pixel Thinking
- Solution Finding
- Adaptability to Different Roles
- Highly Responsible
- Conceptual Design
- Multi-tasking
- Always Trying New Things

TECHNICAL SKILLS

DEVELOPMENT

JavaScript, NodeJS,
TypeScript, ES6/5,
AngularJS 4, Ionic 3, AmberJS
jQuery, ReactJS, Lodash & Underscore
HTML5, CSS3, SASS
PHP, SQL, NoSQL, FireBase, MongoDB
JSON REST API, AJAX
Bootstrap^, Foundation ...

FRAMEWORKS & CMS

WordPress, Joomla,
Drupal, Magento, Shopify,
OpenCart, X-Cart,
Laravel, Lumen,
CodeIgniter, Yii 2

DESIGN

Mobile design
Interaction design
Prototype design
Web design
Material Design
User Actions map

ENGINEERING

Amazon Web Services:

EC2, Elastic Beanstalk,
Lambda, RDS, Route 53
Mobile Hub, Cognito, Firewall

Server Engineering:

Centos, Ubuntu, WHM/Cpanel
SSH, Security & Networking
DNS, SSL

Data Modeling & Database Architecture:

MySQL 5.6/5.7, MariaDB, Aurora DB,
Redis, DynamoDB, Firebase,
MongoDB, Workbench, phpMyAdmin, Sequel Pro

PROJECT MANAGEMENT

Teamwork PM, JIRA,
Confluence, Slack,
Trello, Basecamp,
Smartsheet, Google Docs

API & INTEGRATIONS

Google Apps, Diffbot, Docker
Facebook API, Google +,
LinkedIn, Twitter, Instagram
Gmail, MailChimp
Stripe, Paypal, Authorize.net,
Parse, Pusher, Firebase, Socket.io

TOOLS

Mac OS X/ Windows
Xcode, Android Studio
Sketch, Adobe CS
PHP/WEB Storm
Workbench, Postman
MAMP, Terminal
npm, gems, bower
SourceTree, Git ...

EDUCATION

2007 - 2008
Computer Technology
ASA College
New York, USA

2004 - 2007
Mechanics and Technology
Kaliningrad State Technical University
Kaliningrad, Russia

2001 - 2005
Electromechanical Engineering
Kaliningrad Marine College
Kaliningrad, Russia
