SUMMARY

Highly skilled Engineering Manager with 12+ years of experience leading cross-functional teams and driving successful project delivery. Seeking to leverage strong technical background in AWS, serverless, Angular, and other technologies to lead and mentor high-performing teams in an innovative software engineering environment.

EXPERIENCE

BLINK FITNESS, New York, NY **Engineering Manager** (August 2018– Present)

- ❖ Built Blink Fitness IT department, forming and leading three delivery teams and implementing efficient hiring and onboarding processes.
 - ❖ Managed cross-functional teams in different time zones, achieving successful project deliveries through effective training, coaching, and leadership.
 - ❖ Implemented a robust delivery pipeline for five core company projects, resulting in increased development efficiency and quality.
 - ❖ Controlled project schedules and roadmaps, ensuring adherence to quality standards and managing change effectively.
- ### **Software Architect** (January 2018 – January 2020)
- ❖ Led the decoupling of Blink Fitness IT infrastructure from the Equinox family, designing an entirely new architecture based on AWS and a serverless approach.
 - ❖ Designed a new informational architecture schema, sketches, flow diagrams, wireframes, mockups, and user action maps.

CNBC, Englewood Cliffs, NJ **Team Lead Software Architect** (September 2017 – February 2018)

- ❖ Defined and executed new architecture for a complex dashboard project using Angular, Google Cloud Platform, and AWS.
- ❖ Supervised a cross-functional engineering team, providing guidance and documentation to ensure successful project delivery.

SUDLER & HENNESSEY New York, NY **UX/UI Designer | Software Engineer** (May 2016 - September 2017)

- ❖ Collaborated with a team on implementing new features and new User Interface design in an Agile environment
- ❖ Recommend new product ideas and maintained records for potentially patentable ideas
- ❖ Implemented plug-ins to extend application functionality
- ❖ Developed front-end UI by using HTML5, CSS3, and JavaScript, taking advantage of the frameworks Angular

NYDVS New York, NY **Director of Engineering** (May 2013 - August 2016)

- ❖ Managed multiple teams of web/mobile engineers, graphic designers, and project managers, introducing Scrum and creating a predictable release schedule.
- ❖ Led the design and development of desktop and mobile app projects, aligning strategies with the company's overall objectives.

RUCKUS MARKETING New York, NY **Software Engineer** (September 2011 - April 2013)

- ❖ Successfully developed x number of projects using WordPress, Open Cart, Magento, PHP, JavaScript, AWS, Codeigniter, MySQL, HTML, and CSS.
- ❖ Implemented advanced Google Tag Manager, and Google Analytics, which helped track user behavior and conversion data.
- ❖ Open Source development: WordPress, Drupal, Joomla, Open Cart, Magento, etc

EDUCATION AND TRAINING

Kaliningrad State Technical University - Bachelor's and Master's Degree, July 2006 Major in Electrical Engineering
